

The Alexander Graham Bell Association for the Deaf and Hard of Hearing (AG Bell) is a lifelong resource, support network and advocate for listening, learning, talking and living independently with hearing loss. Through publications, advocacy, training, scholarships and financial aid, AG Bell promotes the use of spoken language and hearing technology. Headquartered in Washington, D.C., with chapters located in the United States and a network of international affiliates, AG Bell's global presence provides its members and the public with the support they need – close to home. With over a century of service, AG Bell supports its mission:

Advocating Independence through Listening and Talking!

To that end, the Michigan Chapter of AG Bell
is pleased to present

Dave Sindrey, M.Cl.Sc. LSLS Cert AVT

Dave Sindrey is a certified Auditory-Verbal Therapist and has authored and illustrated 9 programs for children with hearing loss, including *Listening Games for Littles II* and the *Cochlear Implant Auditory Training Guidebook - Second Edition*. Love to Listen

with Dave Sindrey, M.Cl.Sc. LSLS Cert AVT

Learn about hierarchies and goal setting for listening while creating activities and games that make listening fun. This "hands-on" workshop is geared for the professional or parent looking for ways to invigorate and empower the children that they talk with. Many activities for toddlers, preschoolers and school age children will be discussed, shared and even created. Each participant will receive a CD that will allow printing of all of the make and take activities offered in this workshop. The first part of the day will focus on building listening skills. Each participant will create 2 preschool activities to take away from this discussion. The latter part of the day will turn toward broader language listening in stories and conversation as children develop the listening skills needed for learning at school. Eight new activities will be shared with participants choosing 2 to make and take.
